Download Certificate

Important: Certificate Download must be completed on the same machine used during certificate enrollment.

- Check certificate details.
- If the certificate details are correct, click 'Download' to download the certificate onto your browser / Smart Card / USB Token, as applicable.
- You will need to enter the Authentication PIN sent to the Email ID provided in your certificate request.
- If the certificate details are not correct, click 'Reject' to reject the certificate.
- Click 'Back' to go back to the 'View Status' page.

Your Digital Certificate Information

E-mail Address	anish@atc.tcs.co.in
Country	IN
State	Andhra Pradesh
Locality/ City	Hyderabad
Organisation	Tata Consultancy Services
Organisation Unit	Class 3 Certificate
Organisation Unit	Advanced Technology Center
Organisation Unit	TCS Registration Authority
Common Name	Anish K. Srivastava
Serial Number	AGAE

Please enter the Authentication PIN sent to **anish@atc.tcs.co.in**, the E-mail ID provided in the certificate request.

Authentication PIN

Note: You will **not** be able to download your certificate without the Authentication PIN. So please ensure that you enter a valid email ID during certificate enrollment.

If you have not received your Authentication PIN, please do the following:

- Go to **View Status** and check the status of your certificate request.
- If the status says **Request Pending at RA Office** or **Request Pending at CA Office**, it means that your certificate request is still being processed. Please **contact** your RA Administrator to find out whether all your documents (as per the checklist in **Step-2**) have been received. If any documents are pending, please send these to TCS-RA immediately so that your certificate can be generated.
- If the status says **Certificate Generated**, please [contact](#) your RA office and inform them of the same.

Note: In case you provided an invalid/incorrect Email ID at the time of enrollment, you will need to repeat the enrollment process. This is because your Email ID is part of the information displayed in your digital certificate and it needs to be verified just like all your other credentials before your certificate can be issued.

Click the **Download** button to download and install the Certificate.

Screenshot-10

Download Certificate

Important: Certificate Download must be completed on the same machine used during certificate enrollment.

- Check certificate details.
- If the certificate details are correct, click 'Download' to download the certificate onto your Browser / Smart Card / USB Token, as applicable.
- You will need to enter the Authentication PIN sent to the Email ID provided in your certificate request.
- If the certificate details are not correct, click 'Reject' to reject the certificate.
- Click 'Back' to go back to the 'View Status' page.

Your Digital Certificate Information	
Email Address	anish@atc.tcs.co.in
Country	IN
State	Andhra Pradesh
Locality/ City	Hyderabad
Organisation	Tata Consultancy Services
Organisation Unit	Class 3 Certificate
Organisation Unit	Advanced Technology Center
Organisation Unit	TCS Registration Authority
Common Name	Anish K. Srivastava
Serial Number	A6AE

Please enter the Authentication PIN sent to anish@atc.tcs.co.in, the E-mail ID provided in the certificate request.

Authentication PIN:

Once the certificate is downloaded, you will see the following confirmation.

Screenshot-11

At this point, your certificate has been successfully downloaded onto your machine or USB Token.

10. For downloading the Certificate Following Browser setting is must on Machine, Please do the following to enable Active-X controls in your Internet Explorer (IE) browser.

- Open an IE window and go to Tools -> Internet Options -> Security -> Custom Level

- Ensure that all five settings under 'ActiveX controls and plug-ins' are set to 'Enable' or 'Prompt'

Note 1: If you generated your certificate request on a browser (i.e., if you did not use a USB token at the time of enrollment), you will have to download the certificate on the same machine. This is because, at the time of enrollment, cryptographic keys are generated and stored on your machine. These cryptographic keys form the technical basis for the generation and use of your digital certificate. Without these, you cannot download the certificate.

Note 2: If you used a Smart Card or USB Token at the time of certificate enrollment, you can download your certificate on any machine to which your USB token is connected.

Note 3: When you upgrade/reinstall your Internet Explorer browser, the digital certificates and cryptographic keys are permanently lost. It is therefore very important to backup your certificate before you make any changes to your browser or system configuration.

11. Procedure for How to use USB eToken?

To start the process, procure the Digital Signature Certificate Enrollment Kit from TCS-CA or its Registration Authorities. The kit contains:

- USB Token
- Installation CD. This contains:
 - USB Drivers
 - Mozilla Firefox
 - TCS File Signer plus Evaluation Copy

Note:

- Use the Installation CD to install the USB Token driver.
- Ensure the following before installing the USB token driver.

System Requirement:

1. Operating System: Windows 2000, XP

2. Browser: Internet Explorer 5.5 and above

To install the eToken:

1. Insert the CD into the CD drive of your computer.
2. To install eToken driver click on etoken_driver_aladin.msi Windows Installer Package. Accept the License Agreement and proceed with installation.
3. Insert the USB Token in the USB port of the computer, if prompted
4. Restart the computer after the installation is complete.
You can now see the eToken Properties from the Start Menu by selecting Programs> eToken> eToken Properties .

Click “eToken Properties” and with your eToken inserted, the following screen is displayed:

Changing the EToken Password :

All eTokens are configured at manufacture with the factory default password. This password is “1234567890”. Click “Change password” on the eToken Properties

screen and the following eToken Properties dialog is displayed:

Enter your current eToken password in the “Current Password” field and, the new Password in the “New Password” field. Confirm new Password and click “OK” to set the new Password.

Renaming The EToken :

For additional convenience and ease of identification, the eToken name can also be personalized. Click “Rename eToken” on the eToken Properties screen. Since renaming the eToken requires the eToken password, the following dialog is displayed:

Give the Password for the eToken and click “OK”

Enter the new eToken name in the eToken Name field and click “OK” to set the eToken Name.

Importing The Certificate into EToken :

To import the Certificate, you first need to export the certificate from the IE Browser onto the Desktop and then import it into the eToken.

Exporting The Certificate :

Exporting the Digital Certificate from the browser and maintaining its backup as a '.pfx' file is essential since, at any point of time if your certificate gets deleted from the browser or token or if you format your system, you can always import it again.

For exporting your Certificate that has been downloaded in your browser, Open the IE Browser and follow the path

“Tools>Internet Options>Content>Certificate>Personal” tab.

CERTIFICATES

The certificates issued by TCS-CA is in X509 v3 format. In Microsoft windows machines, it will be recognized by the extension “.cer”.

To view the certificates, double click the .cer file

Click on the Details tab to get the more details on the certificate.
